EASA APPROVAL REFERENCE: EASA.21J.321

Airworthiness Course

Course Outline

This course has been designed to address the airworthiness certification and responsibilities needed for the life of an aircraft.

The course is aimed at those involved in the aerospace industry who need to understand the needs for Airworthiness Certification to ensure the safety and airworthiness of an aircraft throughout its life:

In summary it will cover the following aspects:

- Airworthiness requirements overview
- ICAO
- Part 21
- Quality Systems
- Type Certification requirements
- Design Organisation Approval
- Production
- Design Certification
- Validation
- TC Principals
- In Service Continued Airworthiness
- Air Accidents Investigations
- Changes and Repairs
- ETSO
- EU Ops
- Part M
- Part 145
- Aircraft Modification Survey
- Part 66/147

The course is a five day classroom based PowerPoint and video presentation.

The courses can be presented at our training facilities in Turners Hill near Gatwick Airport or at your venue.
