

# Cabin Safety Certification

## CS 25 Overview Course Outline

This course has been designed to address the training requirements with regard to the certification and continuing airworthiness understanding of changes and repairs on large fixed wing aircraft types, business jets and cargo aircraft.

The course is aimed at all design people, especially those involved in the design and certification of changes and repairs to the above aircraft who work for:

- EASA Part 21 Subpart J Design Organisations

In summary it will cover the following aspects:

- Introduction to Airworthiness
- Airworthiness requirements overview
- FAR, JAR
- CS 25
- Certification
- Classification
- Certification programme + examples
- Compliance planning + examples
- MOC + examples
- Compliance checklist + examples

The course is a two day classroom based PowerPoint presentation.

The courses can be presented at our training facilities in Turners Hill near Gatwick Airport or at your venue.
