

Cabin Safety Certification

DOA Course Outline

This course has been designed to address the training requirements with regard to the certification and continuing airworthiness needs of cabin interiors changes on large fixed wing aircraft types, business jets and cargo aircraft.

The course is aimed at all people, especially CVEs involved in the design and certification of changes and repairs to the above aircraft that work for:

- EASA Part 21 Subpart J Design Organisations

In summary it will cover the following aspects:

- Introduction to Airworthiness
- Airworthiness requirements relating to cabin safety
- FAR, JAR, CS
- Certification
- Classification
- Certification programme
- Compliance planning
- MOC
- Compliance checklist
- Reports
- Tests
- Conformity /Prototyping
- Compliance development
- Compliance verification
- Data
- Flight and ground test
- Approval/Certification
- Control of Subcontractors

The course is a three day classroom based PowerPoint presentation.

The courses can be presented at our training facilities in Turners Hill near Gatwick Airport or at your venue.
