

Part 21 Subpart J DOA

Course Outline

This course has been designed to address the training requirements with regard to the understanding and application of Part 21 in a design organisation.

The course is aimed at all design engineering people, especially CVEs involved in the design and certification of changes and repairs to aircraft that work for:

- EASA Part 21 Subpart J Design Organisations

In summary it will cover the following aspects:

- Overview of EASA regulations.
- Overview of Part 21, all sub-parts including Acceptable Means of Compliance and Guidance Material.
- Part 21 Subpart J in detail including, Supplemental Type Certificates and Repairs.
- The Design Organisation Handbook.
- Investigation methods and processes.

The course is a one day classroom based PowerPoint presentation.

The courses can be presented at our training facilities in Turners Hill near Gatwick Airport or at your venue.
